COUNTRY OVERVIEW

Despite a solid economic performance over the past two decades, Moldova still remains among the poorest countries in Europe. The war in Ukraine has further compounded the effects of the COVID-19 pandemic and pre-existing energy crisis. The influx of Ukrainian refugees has been substantial, standing at nearly 117,000 in April 2024.[1]

Convoy of Hope began serving in Moldova through Community Events and community engagement activities in 2006. In 2020, Convoy began implementing program work within the country, despite the difficulties of the COVID-19 pandemic.

In 2021, Convoy made the shift to establish consistent programming in both Agriculture and Women's Empowerment.
